MSRP

\$999.00

A classic putter design fully milled from Japanese Stainless Steel, the KM putter line has exceptional feel and is made of the highest quality materials.

The KM1 blade putter features a deep-milled face pattern, paired with a rolled top line and plumbers neck which makes any player confident in their alignment when stepping up to the ball. The rounded-off look is designed for the feel player who prefers stability and consistency. The back cavity includes Miura's retro logo designed to have an old school look and an industrial feel in celebration of the Miura factory's history.
